Besançon, 16 June 2014

Dear Sir or Madam,

We are pleased to send you the leaflet for the **9th micro and nano brokerage event** that will take place on 25th and 26th September during the Micronora trade fair in Besançon, France. The focus this year lies on advanced materials, micro-mechatronics and associated information technologies.

Organised within the Enterprise Europe Network by the Chamber of Commerce and Industry of the Region Franche-Comté, the brokerage event is a perfect place to:

- meet international companies, research laboratories and clusters, and make new business contacts
- present the latest technologies, innovations and know-how
- exchange ideas and initiate new partnerships or projects

The 8th edition that took place in 2012 gathered 110 participants from 10 different countries and was a success, with 7 transnational partnerships generated.

Please do not hesitate to contact us if you have any questions. We hope to see you in Besançon in September!

Best regards,

Anne-Marie VIEUX
